

Let Me Lie

[Hayley Westenra](#)

Advisory - the following lyrics contain explicit language:

Let me lie on grasses green
On my mother earth I leanLet me lie on grasses green
On my mother earth I lean
Under burning sun
Through my veins she runsLet me breathe the forest air
It's the life force that we all share
Feel my burning tearsHeal me through as I lie
Here with you, heal me through
Let me sleep and keep me closeHeal me through as I lie
Here with you, heal me through
Let me sleep and keep me closeLet me lie on grasses green
On my mother earth I lean
Under burning sun
Through my veins she runsHeal me through as I lie
Here with you, heal me through
Let me sleep and keep me closeHeal me through as I lie
Here with you, heal me through
Let me sleep and keep me closeUnder burning sun
Through my veins she runs
Her and I are one
