Golden Veins

Two Door Cinema Club

You were a thud in the night
You were a thud in the night
You were a thud in the night
You're what we heard at night
You were a thud in the night
You were a thud in the night
You were a thud in the night
You're what we heard at night
[3x]We're high above your golden veins
We're high above your golden veins
We're high above your golden veins
The life, the life, the lifeYou were a thud in the night
You were a thud in the night
You were a thud in the night
You're what we heard at night
You were a thud in the night
You were a thud in the night
You were a thud in the night
You're what we heard at nightOh let me walk around these walls
Correct your words forget my thoughts
And let you feel some life in here
Tonight, tonight, tonightSwimming through the diamond sea
There's dancing lights surrounding me
Now high above your golden veins
The life, the life, the lifeYou are the only one
My soul it knows no one other than you
Oh you know I love you
[4x]You were a thud in the night
You were a thud in the night
You were a thud in the night
You're what we heard at night
You were a thud in the night
You were a thud in the night
You were a thud in the night
You're what we heard at nightHeard in the night
Heard in the night
Heard in the night
[4x]We're high above your golden veins
We're high above your golden veins

We're high above your golden veins
The life, the life, the life
[2x]You were a thud in the night
You were a thud in the night
You were a thud in the night
You're what we heard at night
You were a thud in the night
You were a thud in the night
You were a thud in the night
You're what we heard at night
