I'm Not Around

The Muffs

Yeah you're a creep as far as I can tell
When you go to sleep you're sure to go to hell
You never know and I won't say
I'm going out the window did you ever
Dream I'd ever go away?And I feel better that way, I'm okay
I hope you die today
You and I up and down and now
I'm not aroundThe yelling screaming are all not okay
When you go to sleep I know I'll go away
You won't hold me down not anymore
And I can do much better thanYour narrow minded self could ever know
I hope you die today all alone
And make it right away
You and I up and down and now
I'm undergroundI don't care what you say, I won't believe you anyway
You try and try and now you are alone
I don't care about you I won't say another
Word to you and then I'll disappear foreverYou and I up and down and now
I'm not around
I'm not around
I'm not around
I'm not around
