

I Believe (feat. Mattie of For Today)

KB

I (I)

I believe (I believe)

I believe that (I believe that)

I believe that we will win I (I)

I believe (I believe)

I believe that (I believe that)

I believe that we will win Let me take it there

Please brag on what you did

How you smashed your first week sales

It ain't like your numbers make vaccines that heal weak cells

You brag when your money go somewhere besides yourself

I'm going with our voice

Where they got them bullets flyin' like it's PowerPoint

And then I'm going down to HaCo

With a chance of makin' it down to flocko

I'm with the Southside kids 'til they reach age

And then head for the Keys like spring break

'Cause I believe that we intervene with our knees grey

And go and be changed, then we talk about it

I get it poppin', pop it, you probably got a problem

Before they can stop me, gotta cut my power like I'm Amish

Hold the torch up high in the thick dark

The dream works no matter how bad the pics are

'Cause I see how bad the globe is

But they don't know how bad our hope is

They don't know how bad we want this

It ain't where we at boy it's where we going! I believe that we will win, I believe that we will win

I believe that we will win, I believe that we will win

I (I)

I believe (I believe)

I believe that (I believe that)

I believe that we will win

I believe that we will win, I believe that we will win

I believe that we will win, I believe that we will win

I believe that we will win, I believe that we will win

I believe that we will win, I believe that we will win They tell my young dudes that success is up to you

But that's hard when you got twelve years of wack schools

So it's rap or it's racks, either way you get them bars

When they give up we get charged

What's the system to our God?
We don't fight for the W
But we fight from the double you
Never said it wouldn't be trouble
But, but he bring trouble to whatever troubles you
As struggles do multiple valuable things that are wonderful
We suffer through, hustle through all the things he wants to humble you
Humble you, take you and break you and make you into another dude
Take away any other truth, he's the one that can comfort you
Aight!
Wait on it, tomorrow we live!
He's makin' all things new!
Makin' all things new
Tell the paraplegic that he gon' dance
Tell breast cancer that she won't win
Tell racism that he gon' end
What he doesn't heal now, homie he gon' then
Let's go! I believe that we will win, I believe that we will win
I believe that we will win, I believe that we will win
I (I)
I believe (I believe)
I believe that (I believe that)
I believe that we will win
I believe that we will win, I believe that we will win
I believe that we will win, I believe that we will win
I believe that we will win, I believe that we will win
I believe that we will win, I believe that we will win
