

Bitter Pill

Billy Idol

Riding down this road
Like I've ridden down a million
I've run thru the epic road
But I can't miss town
I laughed at all the signs
They say speed will kill ya'
A hit of you to slow me down And I've forgotten
How to fly
But I'll remember
Before I die It's a crooked line I follow
It's a rocky road I ride
It's a bitter pill I swallow
Just to keep you by my side
Oh my I'm driving without sleep
There just ain't no tomorrow
Because misery is always colorblind
I've taken every remedy for ignorance and sorrow
Something to cure this wicked mind And I've forgotten
How to fly
But I'll remember
Before I die It's a crooked line I follow
It's a rocky road I ride
It's a bitter pill I swallow
Just to keep you by my side
Just to keep you satisfied And I've forgotten
The reason why
But I'll remember
Before I die It's a crooked line I follow
It's a rocky road I ride
It's a bitter pill I swallow
Just to keep you by my side
Just to keep you satisfied It's a crooked line I follow
It's a rocky road I ride
It's a bitter pill I swallow
Just to keep you by my side
Just to keep you satisfied
Just to keep you by my side
Satisfied
Satisfied

It's a wicked world baby I'm riding down this road
Like I've ridden down a million
I've run thru the epic Rome
But I can't miss town
I laughed at all the signs
They say speed will kill ya'
It took you to slow me down A hit of you to slow me down
It took of you to slow me down A hit of you to slow me down
It took of you to slow me down A hit of you to slow me down
It took you to slow me down, baby A hit of you to slow me down
It took you to slow me down
