All the World

[Fauxliage](#)

I'll break you down
I'll take you down, down
Fill you with sadness
Make your life madness
I'm having a hard time
I'm making you do the hard time, too

I'm stuck in a bad way
And I'm gonna make you pay for it
Give me a mile
I'll take a hundred miles
Such a mistake
Sorry you made

I'm having a hard time
I'm making you do the hard time, too
I'm stuck in a bad way
And I'm gonna make you pay for it
I know you're here
I know you're gone

I never asked you to stay
I'm waking up baby, now tell me

I'm making you do the hard time, too
I'm stuck in a bad way
And I'm gonna make you pay for it
I know you're here
I know you're gone
I never asked you to stay

I'm waking up baby, now tell me
Are you okay?
