

Hook In Her Head

Throwing Muses

Certain things I love
Spend my time
I guess I'll have to unhook those hooks
This woman literally
Felt she had a hook in her head
Rip it up Live it down
Make it big Keep it clean
Shake it off
Take him off Take it off
Do him good Keep it up
Shake it off
He's a fucking drag
But if you don't then you watch him go
If you can you see it home
You be strong
And when you die it's a shame
But you old life stays the same
She has a hook in her head
I saw this lady close her eyes
The bottle slipped between her fingers
And slid along the aisle
If I were a man I'd have a gun
But I'm so bone tired
I'm so bone tired
I'm old...
I watch the snow make slow time
I watch the snow cover up the bottle
So I can slip between
I will read the label from underneath
I wear the circle in my sleep
