

Miss Mixed Signals

Tan Sleeve

Red light, green light,
girl you're stripping my gears
Stop dead, go ahead
you're driving me to tears
I step on the gas, I step on the brake
You're making my engine shake

Well, I can't tell
what you're telling me
I can't see
what you're showing me
Your lips are moving
but you're out of sync
You're Miss Mixed Signals

I jump in the speed lane
when I think she gives the okay
But then it seems
like I'm in for unexpected delays
I'll search for a detour
if I can work up the nerve
I'm a real daredevil
when I hit those dangerous curves

I step on the gas, I step on the brake
You're making my engine shake

You keep me wondering
if I should exit or stay
You keep me wondering
who's got the right of way
When I'm with you, girl
You can smell my rubber burn
But I'm hoping one day
you're gonna yield
and we'll finally merge
You keep me wondering

I step on the gas, I step on the brake

You're making my engine shake
