

Land of Canaan

Therion

Noah cursed Canaan to live as a servant
Teshub was angered
And the storm was sweeping through the land
And the storm was sweeping through the landLand of Gods of wind and sea
Of purple dawns, fertilityI wanna see the great kings rule again
And I wanna grow the grapes for the Canaanites
And I wanna sail upon the seven seasI wanna see the old Gods rule again
I wanna make the wine for the Canaanites
I wanna sail upon the seven seas
I wanna see the great kings rule againThey were founders of towns
And the founders of states
Punic Phoenicians
Praise of El Elyon, mighty god of the skiesHe's the father of manO El, father of man
O father of man
O father of time
El Elyon
El ElyonEl, Anath and Baal
O Astarte, you're naked with a Lilly
Holding a serpentO Baal-Shamem, lord of heaven
Giver of rain, the one who prevails
Son of Dagon
You're the thunder with a spearheadEl, Anath and Baal
O Astarte
You're naked with a Lilly
Holding a serpentO Baal-Shamem, bring back again
The peace of Canaan, you raise your spear
And silence the man
You are the thunder with a spearheadQudshu Anath, Shalim, El, Baal Aliyan
Holy virgin, bringer of peace, Shalim
May all the gods break the curse of Canaan
Qudshu Anath, Shalim, El, Ball AliyanLand of Canaan, son of Ham
Red hot and purple, close to land of KhemFrom the sea to Jordan
They will travel in the name of gods
Temples of Ugarit
Honor gods under the cedar treesShowed a path through
The seas before unknown in the history
Guided by polar star
Into a Phoenician galaxySail on the sea, come to me
Through the night

Pass through the gate
And steer your course
Until you reach the godsEnter the sky, take a step
Make them see
When you arrive
Go all the way
Until you reach the gods
Until you reach the gods
