Country Enough

Jeff Bates

If you hear it on the radio
And don't turn it up
It ain't country enoughSix presets on the stereo in my new truck
Five other buttons that I don't ever wanna touch
Some other station's playin' some other junk
That folks don't listen to where I come from
It ain't country enough'Cause if you ain't crying or fallin' in love
Then you ain't heard the good stuff
If you hear it on the radio and don't turn it up
It ain't country, it ain't country enoughGreat big speakers in his little foreign automobile
Tires looking flat like he's just about rollin' on wheels
What he's playin' is making his car thump
That kind of noise will make an eardrum bust
It ain't country enough'Cause if you ain't crying or fallin' in love
Then you ain't heard the good stuff
If you hear it on the radio and don't turn it up
It ain't country, it ain't country enoughHe ain't got nothin'
But the bass and the beat
If you wanna keep it country
Come and ride with me'Cause if you ain't crying or fallin' in love
Then you ain't heard the good stuff
If you hear it on the radio and don't turn it up
It ain't country, it ain't country, it ain't country enoughCountry enough
Country enough
That's what I'm talking about
