

# The Way You Want to Live

Gregory Porter

Weird one, and yes, wise one  
Standing on rocks of compromise cliffs  
Trying to find your thrill  
Peace against your will  
That's the way you want to liveBig one, and yes, small one  
Flying through smoke  
And lying in the mud  
Trying to find your thrill  
Peace against your will  
That's the way you want to liveWell, I need someone  
Just to be there  
Just to be square for me  
I have been through it all  
Catch me when I fall  
Just be there for meWeird one and Yes wise one  
Standing on rocks of compromise cliffs  
Trying to find your thrill  
Peace against your will  
Will...MUSICWhen I need someone  
Just to be there  
Just to be square for me  
I have been through it all  
Catch me when I fall  
Just be there for meOohhh weird one and wise one  
Standing on rocks of compromise cliffs  
Just trying to find your thrill  
Peace against your willWeird one, Wise one,  
Big one, Small one  
Dear one  
Hhuummm
