

Said & Done

The Blackout

Well, I got no doubt about it
'Cause I see your eyes are hiding that you know
Don't let this carry on too long
Never learn, never learn to go on Yeah, it came from out of nowhere
And you said that you just don't care, you're twenty four
I hope the days and nights spent by your side
Realized, realized just what you've done You said, you said
You said you wanted me When everything is said and done
We won't be here tomorrow
You've made your bed, sleep tight my love
I hate that you brought sorrow Give me something to believe in
'Cause this bullshit's left for seeking for something more
We spent our time, we spread those lies
And the truth that's hidden behind your eyes I need someone to sink my teeth in
Someone who've known what I am feeling for far too long
It ain't what you know, it's just what you want
It's what you show You said, you said
You said you wanted me When everything is said and done
We won't be here tomorrow
You made your bed, sleep tight my love
I hate that you brought sorrow You said you wanted me, you said you wanted me
You said you wanted me dead
You said you wanted me, you said you wanted me
You said you wanted me dead When everything is said and done
We won't be here When everything is said and done
We won't be here tomorrow
You made your bed, sleep tight my love
I hate that you brought sorrow When everything is said and done
We won't be here tomorrow
You've made your bed, sleep tight my love
You brought me pain and sorrow You said you wanted me, you said you wanted me
You said you wanted me dead
You said you wanted me, you said you wanted me
You said you wanted me dead
