

# Suspiria Snow White

## The 69 Eyes

What it's like in the night  
To sleep alone in the pale moonlight  
What it's like in the night  
To sleep alone in those sheets so white And you're dreaming someone else's dream  
And there's no-one to hear you scream, hear you scream What it's like to sleep alone in the night  
What it's like Suspiria Snow White What it's like in the night  
To sleep alone with the thunder and light  
What it's like in the night  
To sleep alone with your demons insight And you're dreaming someone else's dream  
And there's no-one to hear you scream, hear you scream What it's like to sleep alone in the night  
What it's like Suspiria Snow White
