We Like To Chill

2 Live Crew

Sit back and relax
Sit back and relaxWe like to chill
We like to chillIm sittin by the pool thinkin bout some women
Wishin that we all could be swimmin
Then the poison clan bought some tricks
Couldnt find Luke, Marquis or MixxAnd now Im drinkin champagne and eatin hors dourves
Talkin to the ladies with the sexy curves
I opened a bottle of Mo, the phone rang, hello?Now this is how we do it
They rushed to crib before I knew it
The crew dont know how to ill
But everyone knows we like to chillWe like to chill
We like to chill
We like to chill
We like to chillIts hot, I dropped the top to feel the breeze
Rollin in the jeep to the APTs
To get this girl so we could go for a ride
Rollin down the ave but I cant decideShould we go to the beach or just chill?
Today I lost a hundred dollar bill
But still Im bankin, I cant wait to see Stacey
Its gettin hot, so I turned on the ACI see this girl in a tight-fittin mini
She looks kinda good but shes a little skinny
So I kept on rollin, Im changin my plan
When I get Stacey, Ill check out the Ice-man!I picked her up, she said, where we goin?
Its a surprise, I dont want you knowin
Will I like it? Of course you will
Cause you know that I know all the places to chillWe like to chill
We like to chill
We like to chill
We like to chillI went to the door then I knocked
When he answered I was shocked
It looked like a party plenty girls were there
But Stacey was with me but I still had to stareI walked inside and of course you know
I grabbed some girls and a bottle of Mo
Im the brother Marquis and its time to get ill
Everybody knows thats how I chillAbout that time, I was gettin dizzy
Cause it was time to get busy
I told the girl what Luke said
Then rushed to the room with the water bedThen everyone did the same
Later that night, Ghetto came

Then everyone got a thrill
You know how we do it, baby, we like to chillWe like to chill
We like to chill
We like to chill
We like to chillWe like to chill
We like to chill
We like to chill
We like to chillWe like to chill
We like to chill
