What You Do

Adam Lambert

Say it with your actions
Saying those words to me doesn't mean anything
I don't want to hear 'um
Baby you can keep those three, you might as well not even speak
Many different times before you were almost out the door
Then you'd say it and I'd forgive everything
Well, I'm sorry to report that's not working anymore
Now I need to see if that's really what you mean
No more I'm sorry
I love you, I need proof
Baby boy it's all in what you do
I love you, if it's true
Baby boy it's all in what you do
Say it with your actions
Say it in the way you touch and the things that you do for us
I don't want to be mean
But when it comes to this love saying it just ain't enough
Many different times before you were almost out the door
Then you'd say it and I'd forgive everything
Well, I'm sorry to report that ain't working anymore
Now I need to see if that's really what you mean
No more I'm sorry
I love you, I need proof
Baby boy it's all in what you do
I love you, if it's true
Baby boy it's all in what you do
It's in what you
It's, it's in what you do
It's in what you
It's all in what you do
It's in what you
It's, it's in what you do
It's in what you
It's all in what you do
No more I'm sorry
I love you, I need proof
Baby boy it's all in what you do
I love you, if it's true
Baby boy it's all in what you do

It's in what you
It's, it's in what you do
It's in what you
It's all in what you do
It's in what you
It's, it's in what you do
