

# Children of the night

## Masterboy

### Chorus

Feel like children of the night  
let's walk into the light  
like children of the night

### Repeat chorusRap 1

A child is born to the night  
will it live to see the light  
ghetto life means tears and pain  
many people cry in vain

### Bridge

This generation  
over the nation  
we're gonna take control  
like revolution's  
my contribution  
so free your mind and soulRap 2

Education is the key  
leave your hands off extasy  
respect for life and liberty  
Masterboy will set you free

### Bridge

This generation  
over the nation  
we're gonna take control  
like revolution's  
my contribution  
so free your mind and soul
