

Soap Disco

Kara's Flowers

The crowd was gettin' old
The disco's back or so I'm told
But we've got nothin' here
Except a tired set of ears and we say Hey mama, I'm something
Check it out, see what it's all about
'Cause this is soap disco, so charming
See the floor from a cleaner point of view The children had the time
To overthrow the sign
The super children said
They could see Bright lights and clean colors
Check it out, see what it's all about
'Cause this is soap disco, so charming
See the floor from a cleaner point of view Bright lights and clean colors
Check it out, see what it's all about
'Cause this is soap disco, so charming
See the floor from a cleaner point of view Hey mama, I'm something
Check it out, see what it's all about
'Cause this is soap disco, so charming
See the floor from a cleaner point of view
