

I Got My Eyes on You

Peter Frampton

Step this way, for a better day
It's quiet insane
Knowin' that I came
In from the cold, one track mind
I can't leave behind I don't feel tired 'cause I'm really wild I'm keeping my eyes on you you, baby
Sticking to me, like glue
I got my eyes on you, yea
While you do what you have to do Sudden moon can't you play my tune
I walked right in to another room - they let me in
I believe I got you up my sleeve - nothing's wrong
You're just another weaver I'm keeping my eyes on you you, baby
Sticking to me, like glue
'Cause I got my eyes on you, yea
Do what you have to do You must only understand the part of me you see
We can start again baby I can let you be
Don't want you leavin' before we have a chance
I don't wanna set you free, yea yeaaa Well I'll catch a plane
Or better take a train
Don't give up when ya brake the cup
Let you be above the sea without a phone
Got to live I'm on my own Keeping my eyes on you you, baby
Sticking to me, like glue yeaaa yea
I got my eyes on you, baby
While you do what you have to do
