Light Nights

Paul Weller

Come out to play
Now the light nights are here
We'll swing and sway
Now the light nights are hereHold us
Now the light nights are here
We'll love
Now the light nights are hereCome away with me
Come and stay with me
Run away with meCome out to play
Now the light nights are hereAnd where shall we go
Neither of us knows
Now the days are getting longer
Our thoughts are getting strongerCome out to play
Now the light nights are hereCome away with me
Come and stay with me
Run away with meLove me till the next dawning
Make me feel that I'm wanted
I've been so very frozen
Make me feel that I'm chosenCome out to play
Now the light nights are here
We'll swing and sway
Now the light nights are hereHold us
Now the light nights are here
Now we'll love
Now the light nights are here
