

# Light Nights

Paul Weller

Come out to play  
Now the light nights are here  
We'll swing and sway  
Now the light nights are here Hold us  
Now the light nights are here  
We'll love  
Now the light nights are here Come away with me  
Come and stay with me  
Run away with me Come out to play  
Now the light nights are here And where shall we go  
Neither of us knows  
Now the days are getting longer  
Our thoughts are getting stronger Come out to play  
Now the light nights are here Come away with me  
Come and stay with me  
Run away with me Love me till the next dawning  
Make me feel that I'm wanted  
I've been so very frozen  
Make me feel that I'm chosen Come out to play  
Now the light nights are here  
We'll swing and sway  
Now the light nights are here Hold us  
Now the light nights are here  
Now we'll love  
Now the light nights are here
