Dance To The Radio

Aaron Lines

Your daddy wouldn't like it
If he knew what I was thinking right now
But the way you look this evening, girl
It's hard to keep my feet on the groundIt's raining outside
Let's start a fire
Baby, I say we just stay in tonight
And it's aTurn up the music loud
And turn the lights real low
There's no one else around
Let's lay it down and dance to the radioWell, it's almost like the DJ's playing
Every song especially for us
And it takes me back to that summer night
When you and me learned everything about loveI just wanna hold
Your body close
Girl, I don't wanna ever let go
And it's aTurn up the music loud
And turn the lights real low
There's no one else around
Let's lay it down and dance to the radio, oh yeahWanna feel your heart beat, all night long
When you whisper in my ear
Girl, it's sweeter than my favorite songThere's no one else around, baby
Turn up the music loud
And turn the lights real low
There's no one else around
Let's lay down and dance to the radio
Let's dance to the radio
