

Run Run Run

Phoenix

Business calls me, trouble down the waterfront
You know, I tried to, now I'm runnin' outta lies
It's a clear view, when all you are is gettin' paid
No more favors, I know what we can do about it
I think I better run, run, run, run
I think I better run, run, run, run
You didn't catch me fallin', fallin', fallin', fallin'
Fallin', fallin', fallin', fallin'
Contradictions get me everything I want
I'll let you know but I think it's gonna take a while
It's a clear view, no one's waitin' at the door
A million letters, they couldn't make me change my mind
I think I better run, run, run, run
I think I better run, run, run, run
You didn't catch me fallin', fallin', fallin', fallin'
Fallin', fallin', fallin', fallin'
How you want it to be, sittin' by the waterfront?
I should be drifting far enough to reach the shore
It's a clear view, don't you underestimate me
And no more flavor I know that I can live without it

I think I better run, run, run, run
I think I better run, run, run, run
You didn't catch me fallin', fallin', fallin', fallin'
Fallin', fallin', fallin', fallin'
(Got to play the game you got to do it well)
I think I better run, run, run, run
(Ahh leave those things for someone else)
I think I better run, run, run, run
(But I liked it)
You didn't catch me fallin', fallin', fallin', fallin'
(I don't even care)
Fallin', fallin', fallin', fallin'
(If you got to play the game you got to do it well)
I think I better run, run, run, run
(Ahh leave those things for someone else)
I think I better run, run, run, run
(But I liked it)
You didn't catch me fallin', fallin', fallin', fallin'

(I don't even care)
Fallin', fallin', fallin', fallin'
(If you got to play the game you got to do it well)
