Home Rule

Prong

More conquest more proud division
Another rape for a strong man
It scares you into submission
Now's the time to face the home ruleMore conquest more proud division
Another rape for a strong man
It scares you into submission
Now's the time to face the home ruleIt's our find, never give it back
Our kind shut 'em out
Shine a light bring 'em out
Take no flight never give inMore conquest more proud division
Another rape for a strong man
It scares you into submission
Now's the time to face the home ruleAll alone never give it
In hold tight, to what you know
Birthright, gift of pride
Look down upon your foeMore conquest more proud division
Another rape for a strong man
It scares you into submission
Now's the time to face the home ruleNow's the time to face the home rule
Now's the time to face the home rule
To face the home rule
