

# Light a Way

## He Is We

Down by the lake of Mississippi  
A boy was born poor and abandoned  
And as he walk you could hear him yearning  
For a home and he prays  
And by the fields he sang for rising  
All for his faith and memorizing  
All of the songs his mother learned  
From the lord himself  
Heaven light a way for a fallen  
Let me ease the pain from my mother  
But he feels the deception in his head  
Another day was born and rising  
And on the stool the boy was trying  
To earn a coin for his mother, and hoping

That freedom will lead her away  
Mr. Cadillac Blood: Dear little friend  
I've heard your story  
Please take my hand and I'll promise  
We'll find a way and we'll be fighting  
For your mother, and her wings  
Heaven light a way for a fallen  
Let me ease the pain from my mother  
But he feels the deception in his head  
Heaven light a way for another  
Let me ease the pain for a fallen  
We are on our way so much stronger  
Heaven light the way for another  
And he feels no deception in his head
