Living the Laws

Choking Victim

Lies equal destruction
Greed and your evictionYer living the laws
Yer living the laws
Yer living the laws
Yer living the laws
Yer living the laws
Yer living the lawsBlind exploitation
Sublime eliminationBeside myself, I'm all alone
The lights are on but no one's home
Your history, laws and policies
Y'know they never meant that much to meI know it isn't much, I know it's all we had
And now it's all spoiled and bad
In everyday, there's hell to pay
And all I see is wasting awayFacade is sick beneath
Crass smile with rotted teethLiving the laws
Living the laws
Living the lice
Living the lawsBeside myself, I'm all alone
The lights are on but no one's home
Your history, laws and policies
Y'know they never meant that much to meI know it isn't much, I know it's all we had
And now it's all spoiled and bad
In everyday, there's hell to pay
And all I see is wasting awayNow you have nothing
Now your worth nothingYer living the laws
Living the laws
Living the lies
Living the laws
