

# Follow You (VIP Mix) [feat. Danyka Nadeau]

[Au5](#)

Breathe me in, into the light  
Slowly heal the darkness in my heart I hear you now  
A taste was all I needed  
I feel your love loud and clear  
To the end It's you and me, I'll follow you to the end  
I'll follow you to the end  
To the end Loud and clear I'll follow you to the end Breathe me in, into the light  
Slowly heal the darkness in my heart I hear you now  
A taste was all I needed  
I feel you love loud and clear  
To the end I'll follow you to the end  
It's you and me, I'll follow you to the end  
I'll follow you to the end I'll follow you to the end  
I'll follow you to the end  
To the end  
Follow you to the end  
To the end
