Anyway

Pitty Sing

I'm scared, I'm scared you'll run away and never know me
I'm scared, I'm scared you'll run away and never show me
You run away, your love away
You're giving, you're giving your heart away
You live away, just kiss away
You're giving, you're giving your heart away
I never said before I'm your main adorer
But still we must perform
I love you anyway ohhh ahhh

I'm hurt, I'm hurt by everything you never told me
I'm hurt, I'm hurt by everything you never showed me
You never said before you're my main adorer
But still we must perform
I love you anyway oohhh ahhh
I said I love you, tell everybody, tell everybody to love everybody
I said I love you, kill everybody, kill everybody, kill everybody
