## In My Mind

## **SR-71**

Make this moment last forever and a day Watching you drive by, not letting you drive away Can't you see me trying to wave you down tonight 'Cause I need to see you one more time You'll be there in my mind, in my dreams you can hide And every night I'm gonna bring you back to life There in my mind, an Angel bathed in light Telling me every thing's gonna be alright if I can just fall asleep tonightLonely is the feeling I can't comprehend So I'm skipping through the last page to see how this will end Can't you see me trying to wave you down tonight 'Cause I need to see you one more timeYou'll be there in my mind, in my dreams you can hide And every night I'm gonna bring you back to life There in my mind, an Angel bathed in light Telling me every thing's gonna be alrightHave you ever felt so helpless When the walls built to protect us, suddenly are gone And you hate everything that's breathing The life you're used to cheating, has finally caught on You'll be there in my mind, in my dreams you can hide And every night I'm gonna bring you back to life There in my mind, standing just to my right Telling me every thing's gonna be alright yeah every thing's gonna be alright
