

# Happier This Way

## Splender

You try to scream into the megaphone  
You try to call me on the telephone  
While I'm sinking at the bottom  
And you don't even know my nameFirst you tell me it was copacetic  
Then you tell me that was hypothetic  
While I'm choking at the bottom  
And you don't even know my nameBut I'm happier this way  
I found God, He dropped me yesterday  
But I'm happier this way  
I try harder now to disarray  
But I'm happier this wayYou try to hold me on the dirty floor  
You try to kiss me with your cold sores  
While I'm burning at the bottom  
As you're blowing along the flameBut I'm happier this way  
I found God, He kicked me yesterday  
But I'm happier this way  
I try harder now to disarray  
But I'm happier this wayI'm a leech, I'm a lie  
I believe all the hype  
Water me, I'm so dry  
Water me, as you waste my timeSo you tell me that you really care  
But I notice that you're never there  
While I'm fucked and at the bottom  
And you don't even know my nameBut I'm happier this way  
I found God, He beat me yesterday  
But I'm happier this way  
I try harder now to disarray  
But I'm happier this way  
Happier this way
