I Live You

Charley Pride

I don't just love you I live you where I'm concerned nothing comes before you
If I had ten lifetimes every one I'd give you
No I don't just love you no I don't just love you I live youEvery moment with you makes a memory
When I stumble you're the reason I don't fall
My life is what you make it and you make it beautiful
Words can describe you but love said it all
Cause I don't just love you...
