

Such A Tragedy

From First to Last

You used to be my angel,
but now you're more like the devil.
Keep on talking darling,
you're bound to kill yourself...
with another thousand words.And tears my eyes right out;
i'd rather see you without them anyway.[x2]Take me away.[x2]
I don't know you anymore.[x2]After tomorrow,
things just won't ever be the same again.
Keep on running darling,
you're bound to kill yourself with another thousand miles.And tear my eyes right out.
I'd rather see you without them anyway.[x2]Take me away.[x2]
I don't know you anymore.[x2]And I know you will never
(rip my heart out) listen to me again.
You will never
(rip my heart out and leave it beating on the floor) listen to me again.Take me away.[x2]
I don't know you anymore.[x2]
