

Lucifer (Miura Keys Club Remix)

XOV

[Verse 1]

I want him to meet his maker
I used to be a lover, now I'm a hater
My passion to succeed is watching him bleed
Oh lord, what have become of me?[Chorus]
Once upon a time, I was a fool
To cool for school, gangster cruel
Blood in, blood out, pull the trigger, no doubt
Lucky motherfucker, you don't know what I'd do to you
I used to kick it with Lucifer
And he still lingers in the dark
Oh, oh Lucifer

You better watch out[Verse 2]

The evil within has never been greater
My soul has been seized and he's the dictator
I've been dragged through the mud
I can still taste the blood
Oh lord, what have become of me?[Chorus]
Once upon a time, I was a fool
To cool for school, gangster cruel
Blood in, blood out, pull the trigger, no doubt
Lucky motherfucker, you don't know what I'd do to you
I used to kick it with Lucifer
And he still lingers in the dark
Oh, oh Lucifer

You better watch out[Bridge]

Sometimes I feel like seeking him down just for the hell of it
Look for his face around town
Smack, smack - just a bit
Lucky motherfucker, got away with my cash
I built you up and Imma tear you down
Just like that[Chorus]
Once upon a time, I was a fool
To cool for school, gangster cruel
Blood in, blood out, pull the trigger, no doubt
Lucky motherfucker, you don't know what I'd do to you
I used to kick it with Lucifer
And he still lingers in the dark
Oh, oh Lucifer

You better watch out[Outro]
The devil's been an angel
Even the devil's been an angel
Lucifer
X2
