

Terminated World

Heavens Gate

Why, why we live and die Times running short for a deal
Take your chances
Make up your mind, time to heal
No romances You're creeping in a desert valley
And waiting for the Midas Touch Now your disgrace, you're not
Within a world of circumstances
You're locked up in an empty room
Behind the door of a million chances
You're living in a world of doom Why live and die
In a terminated world?
Take your time
Waiting for tomorrow
Chains are breaking free Born with the faith in your heart
You'll be leading Within a world of circumstances
You're locked up in an empty room
Behind the door of a million chances
You're living in a world of doom Why live and die
In a terminated world?
Take your time
Waiting for tomorrow
Chains are breaking free Why, why we live and die?
We live and die in a terminated world
Why, why we live and die?
We live and die in a terminated world Why, why we live and die?
We live and die in a terminated world
Why, why we live and die?
We live and die in a terminated world Now you're disgrace, you're not
[Incomprehensible], you are breathing
Within a world of circumstances You're locked up in an empty room
Behind the door of a million chances
You're living in a world of doom Why live and die
In a terminated world?
Take your time
Waiting for tomorrow
Chains are breaking free Why live and die
In a terminated world?
Take your time
Waiting for tomorrow
Chains are breaking free Chains are breaking free

Chains are breaking free
