

Fall from Grace

Madam Adam

On my way, another day
Living proof that you can live a lie
On the surface there's a purpose
But I need a reason why Try to cope, that's how it goes
You set yourself so things can fall apart
On the surface I'm the reason this was over from the start Too long, now it's gone
Can't fight this anymore
You can still ask, just don't ask me for the truth I fall from grace, without a trace
I'm left here calling after you
Without a place, there's no escaping
all the dirty things I do Yeah! Another day is here to stay
A perfect picture of a broken heart
On the surface what's the purpose of the thing we go through I'll break away, I'll break away
Don't pretend it's the end, of what you see in me
You can still ask, just don't ask me for the truth I fall from grace, without a trace
I'm left here calling after you
Without a place, there's no escaping
all the dirty things I do Look at me, say your're happy
Find a reason to stay I fall from grace, without a trace
I'm left here calling after you
Without a place, there's no escaping
all the dirty things I do Dirty things I do, I do
Yeah!
