Heaven Is a Truck

Pavement

Heaven is a truck it got stuck on the breeze
Asked the driver nicely, "I need a lift, I need release"
The sand in the boats on the rose-covered floatsShe is the queen of a canceled pasadena thrill
(California)I know arks cant fly
I know the sharks, they dont have wings
But lady you need some cold advice about a few things
Loosen my dress, tie me up just like all the restShe is the queen of a canceled pasadena thrill
(California)
She is the queen of a canceled pasadena thrill
(California)
She is the queen of a canceled pasadena thrill
(California)
