

# If I Didn't

**Daniel Sahuleka**

They may grab away my money  
On break into my car  
But they can't take away my joy my fun  
My music or my rights They may steel away my bike  
Or burn down my possession  
But they can't burn down my motion, devotion  
And most of all my pride You are the colors to all my paintings  
You're the best ever happened to me  
You are the spirit to all my sentences  
Of every song I sing If I didn't have you then  
What will become of me?  
If I had never met you girl  
How would my life be?  
Would I be the same?  
If I'd been loving another name  
Would I stay untamed  
Would there be any aim?  
So whom I will be She doesn't drag around like fancy  
And she is naked around her neck  
As well as naked on her finger, arms or ears  
Her skin can't stand the gems Tough cool down to earth  
Genuine and one of a kind  
She ain't suffering from the "wanna-have disease"  
To ease a restless mind You are the remedy for all my doubts  
The best that I can get  
You are the one I love to talk about  
Even when my blood is bad If I didn't have you then  
What will become of me?  
If I had never met you girl  
How would my life be?  
Would I be the same?  
If I had been lovin' another name  
Would I stay untamed..  
Would there be any aim?  
So whom I will be
