

Emotional Decay

Beseech

I know your kind
I've seen that smile
I won't let you come backBut you know
 Just how to make
 My world fall back
 Just how to make
 My world turn blackI cannot breath
 My mind is blank
You're laughing when I cryWhy did you bring
 My happiness so deep inside
My happiness there just to dieJust how to make my world fall back
 Just how to make my world turn black
On sunless days we're side by sideSunless days
 Sunless days
My emotional decayYou're hiding now
 I'll cut you out
 My sky will gather cloudsWhere can I go
 I try to hide but can not find
I try to leave all things behindMy happiness so deep inside
 My happiness there just to die
'Cause on sunless days we're side by sideSunless days
 Sunless days
My emotional decayI try to hide but can not find
 I try to leave all things behind
'Cause on sunless days we're side by sideSunless days
 Sunless days
My emotional decay
