Where I'm Going

Sir Sly

Take my hand if you know where I'm going through
Take my hand if you know where I'm going
You know ow
You know ow
All you need is a dream and a lover too
All you need is a dream and a lover
Take my hand 'cause I know what you're going through
After the time I haven't known where you're going

You know ow
You know ow
It's my dream that you've chosen if you wanna to
It's a turning cause your if you wanna
You know ow
You know ow
I set me free
But I with hands of dreams
I know fresh down the sea
To wonder will agree
