Kill the Messenger

Kyshera

Information gives you power
So the messenger takes it away
"Every second of every hour,
Keeping the pawns in their place"

The editors of reality
Remote controlling humanity
The voice of wealth & power
And the product that they sell is access to you

The best propaganda
Always makes you think you're free
The public's biggest enemy
Purchased voluntarily

Dont read the papers, turn off the Radio
The truth will come to those that seek
Without TV, you are unreachable
I think its time to kill the messenger

Igorance is relative
If you're ignorant of a lie
Free your spirit & free your mind
Ignore them every single time

They're the pushers of fear & hate
Of the monsters that they create
They give you glitter & they call it light
But the product that they sell is access to you

They can make you guilty
They can make you innocent
They can change history
'Cos they write the present

Dont read the papers, turn off the Radio
The truth will come to those that seek
Without TV, you are unreachable
I think its time to kill the messenger
