

# Underwater

## Porches

Sometimes I see the vision  
Sometimes you know I don't  
Oh how I wish it would show me  
Only the things that I want  
Hi there Franklin underwater (x2)  
I get desiring contact  
The year was heavy and cool  
Everything so delicate  
As I watched you walk into the room  
Hi there Franklin underwater (x2)  
I really want to make it so right  
For us to belong to the night  
Just falling apart  
I lit one up and I drove around  
Just wondering what you're doing now  
We could fall apart
