Sorry

Noel Gourdin

Girl we need to talk
Cause I cant look at you
And keep this to myself
Cause every time I see your eyes
The thought comes back to mind
Girl I didn't want to do it
But I gave into temptation
I couldn't hold it back
She really put me on
And I swear I never meant to hurt you
But its killing me
Cause now I'm so afraid

[Chorus]
Cause I don't want to lose
Girl I'm sorry forgive me
If you'll just let me explain
Girl I'm sorry forgive me

Baby now I understand
If you just want to up and leave
After what I've done cause I don't deserve you
But if you can only take the time
And think of what we had
If you could just give me a second chance
Cause baby we could live romance
Baby just me and you
No one in between us
I know I'm asking for too much
But if you still have a heart
Thats all I need

[Chorus]

I don't want you to leave
Cause I love you
Girl I cant see myself
Living without you
I don't know what id do if I lose you

[Chorus: x2]

[Repeats]
I'm sorry babe
