

Heather and Billy

Blue Highway

Heather and billy
Only had one son of their own
But you hardly ever saw him playing all alone
Some where abandoned some abused
Some neglected others used
But every Mondays child felt at home
Never alone

Sad eyed Samantha
Shes only six years old
But she tells you things a kid should never know
How she cried herself to sleep
And prayed the lord her soul to keep
It's a wonder shes standing here today
God made a way

Never thinking of themselves
Just how to care for someone else
A quiet home just never was their style
Can't say they had a vision
For something more profound
Truth is they just couldn't turn them down

Heather and Billy
They're just like me and you
Look a little closer and you'll learn a thing or two
How to love, how to grieve
How to make yourself believe
When Billy says we're gonna make it through
We always do
