Bad Girl

Massari

She wanna be a bad girl
She wanna be a bad girl
She running from her past life
Looking for the spotlightShe wanna be a bad girl
She wanna be a bad girl
She's all up in the street light
Looking for the spot lightI chase up
She got me running every light
She see me coming
Got me swerving left and rightShe in a tight spot
Checking all her blind spots
'Cause I know you want me there
When the lights outShe got the pedal to the floor
In the rain, in and out of rain
Like it's some kind of gameI'm thinking
That I gotta speed up
'Cause I know that
She don't wanna slow downShe wanna be a bad girl
She wanna be a bad girl
She running from her past life
Looking for the spotlightShe wanna be a bad girl
She wanna be a bad girl
She's all up in the street light
Looking for the spot lightAnd she knows that
She can drive them insane
Body like a super model
Rolling in a rangeAnd I know that she wanna
Get down with a thug
Smack that, give some love
When she wannaWanna give anything to get on her
I lace her up in some Gucci and Prada
Take her to the crib it's on all night
'Cause I'm a let her do what she wantsShe wanna be a bad girl
She wanna be a bad girl
She running from her past life
Looking for the spotlightShe wanna be a bad girl
She wanna be a bad girl
She's all up in the street light
Looking for the spot lightNow she's all up

In the streets and along
Shorty want it bad
And she's out of controlAin't nobody gonna get in her way
'Cause she's out there
Doing her thing, I knowShe needs to be all that type of girl
That'll make you wait up to
For her to call back
But as long as she's bad with me
I'm a keep chasing herShe wanna be a bad girl
She wanna be a bad girl
She running from her past life
Looking for the spotlightShe wanna be a bad girl
She wanna be a bad girl
She's all up in the street light
Looking for the spot light
