

# Bad Girl

Massari

She wanna be a bad girl  
She wanna be a bad girl  
She running from her past life  
Looking for the spotlightShe wanna be a bad girl  
She wanna be a bad girl  
She's all up in the street light  
Looking for the spot lightI chase up  
She got me running every light  
She see me coming  
Got me swerving left and rightShe in a tight spot  
Checking all her blind spots  
'Cause I know you want me there  
When the lights outShe got the pedal to the floor  
In the rain, in and out of rain  
Like it's some kind of gameI'm thinking  
That I gotta speed up  
'Cause I know that  
She don't wanna slow downShe wanna be a bad girl  
She wanna be a bad girl  
She running from her past life  
Looking for the spotlightShe wanna be a bad girl  
She wanna be a bad girl  
She's all up in the street light  
Looking for the spot lightAnd she knows that  
She can drive them insane  
Body like a super model  
Rolling in a rangeAnd I know that she wanna  
Get down with a thug  
Smack that, give some love  
When she wannaWanna give anything to get on her  
I lace her up in some Gucci and Prada  
Take her to the crib it's on all night  
'Cause I'm a let her do what she wantsShe wanna be a bad girl  
She wanna be a bad girl  
She running from her past life  
Looking for the spotlightShe wanna be a bad girl  
She wanna be a bad girl  
She's all up in the street light  
Looking for the spot lightNow she's all up

In the streets and along  
Shorty want it bad  
And she's out of control Ain't nobody gonna get in her way  
'Cause she's out there  
Doing her thing, I know She needs to be all that type of girl  
That'll make you wait up to  
For her to call back  
But as long as she's bad with me  
I'm a keep chasing her She wanna be a bad girl  
She wanna be a bad girl  
She running from her past life  
Looking for the spotlight She wanna be a bad girl  
She wanna be a bad girl  
She's all up in the street light  
Looking for the spot light
