

Drawn to the Light

[Philip Selway](#)

First light, Earth rise.
We can find our way.
We can find our way. Turn 'round, slow down.
We can find our way.
We can find our way. And even the dance won't save me.
Drawn to the light, drawn to the light.
I panic a lot these days.
I'm drawn to the light, drawn to the light. Look away. The wicked games we play.
I'm out of sorts again. First lies, don't cry.
You once said to me.
You once said to me. Turn 'round, find ground.
You once said to me.
You once said to me. And even dance won't save me.
Drawn to the light, I'm drawn to the light.
I panic a lot these days.
I'm drawn to the light, I'm drawn to the light. Look away. The wicked games we play.
I'm out of sorts again.
