

# Dimera

## Lamb Of God

[Incomprehensible] of the opal banded finger  
I will throw you into a concentric mental decline  
I control your elation, I control your emotion  
I take as I wish memory, clothed in a raiment noir I take you under my black wing  
I take you under my dark wing and nurture  
You in hate to dwell forever in a Maison Blanche  
Purity through corruption
