

Wildflower

Sheryl Crow

Quiet hours
You have always been my wildflower
Showing up wherever beauty's lost its way
Your heart must break
I was free
Until I heard the song you sang to me
Pulling me away from everything I knew
To be with you
And everything I know just fades away
And every time you go, it hurts me so
I don't know why? When I know we're free
Free to fly
Here we are
Burning faster than the closest star
Falling back down to the earth

I love you so, it sometimes hurts
Closer still
You will find me standing on the hill
Waiting for you with my arms stretched open wide
Now, come inside
And everything I know just fades away
And every time you go, it hurts me so
I don't know why? When I know we're free
Free to fly
And everything I know just fades away
And when a wildflower grows, it picks its space
And that's the way it is when nature plays
Its lovely hand, you'll understand, everything
Everything, everything
