

# Milk

## Kings of Leon

Salty leave, salty leave Tell me the one about the friend you knew  
And the last good night that we toasted too. Salty leave,  
Stay for me, stay for me We drank wine in the matinee  
And the spotlight showed what it chased away Stay for me She saw my comb over, her hourglass body  
She has problems with drinking milk  
And being school tardy  
She'll loan you her toothbrush  
She'll bar tend your party Kill me, kill me I called and called, but I can't get through,  
Said he's on his own, but his own is you Kill me She saw my comb over, her hourglass body  
She has problems with drinking milk  
And being school tardy  
She'll loan you her toothbrush  
She'll bar tend your party She saw my comb over, her hourglass body  
She has problems with drinking milk  
And being school tardy  
She'll loan you her toothbrush  
She'll bar tend your party (hm hm hm hm hm hm hm hm)
