

# Corrected

## Torqux

Sun went down, it seen your life, it was over  
Discuss, disgusted with rustles  
No particular reason, it's over  
Seems like you're hanging on  
To something that's always been gone  
Can't you see what I can't be? Let me show you  
Feelin' so corrected with bleeding here in silence  
You say that I'm evicted for one thing that's real to me  
What does it mean to you?  
You make me feel so left behind  
I can't wait to get there  
What's it like for you, it's a dream  
You have everything I want  
And all you do is leave  
Can't you see what I can't be? Let me show you  
Feelin' so corrected with bleeding here in silence  
You say that I'm evicted for one thing that's real to me  
What does it mean to you?  
So corrected with bleeding here in silence  
You say that I'm evicted for one thing that's real to me  
What does it mean to you?  
Feelin' so corrected with bleeding here in silence  
You say that I'm evicted for one thing that's real to me  
What does it mean to you?  
So corrected with bleeding here in silence  
You say that I'm evicted for one thing that's real to me  
What does it mean to you?
