Bloodsucker

Agnostic Front

You hide behind our cause
Wave a flag for all to see
We know all your flaws
Your intent, always greedPlayed your games
With no respect to me
Now I see you're no friend to me
Sucking the life right out of meSupersede for your greed
Stab our backs, we bleed
No shit, we won't take
Realize you're just a fakePlayed your games
With no respect to me
Now I see you're no friend to me
Sucking the life right out of meYou hide behind our cause
Wave a flag for all to see
We know all your flaws
Your intent, always greedPlayed your games
With no respect to me
Now I see you're no friend to me
Sucking the life right out of meSucking the life right out of me
Sucking the life right out of me
Sucking the life right out of me
Sucking the life right out of me
